

M.R.F. Supervisor Monthly Report August 8th, 2015

For the month of July, the M.R.F. crew did the following:

- Accepted incoming garbage
- Sorted recyclables
- Crushed glass
- Baled recyclables
- Serviced the equipment
- Sorted the scrap metal
- Switched the demo and garbage boxes
- Worked on the electronics
- Ran the nail sweep
- Worked on the exchange
- Processed the propane cylinders
- Separated the haz-mat
- Cleaned the shop
- Answered numerous phone calls
- Plus the daily routine

Additional info:

1. The clean sweep went very well. We counted around 70 cars coming and going. It was a total success. We were able to get all of our haz-mat on the truck. Thank you to Sheldon and Warren for all the help from NWRCP. The Northwest Regional Planning Commission.
2. I will be going in to have a total knee replacement on Oct. 29th. My down time expected is 3 mos. Carey is very capable of running things while I am out. Greg Thury will be on call so all will be fine. I will have the 2016 Budget done before I leave. This surgery is long over due.

Respectfully Submitted,

Ted Pallas Supervisor M.R.F.
